

Reduce Your Energy Costs & Carbon Footprint!

The industry's best fan is now even better!!

Introducing Strobic Air's programmable **Tri-Stack® Smart System™** : **where intelligence meets economics!**

**The SMART
choice for
safety critical
lab exhaust!**

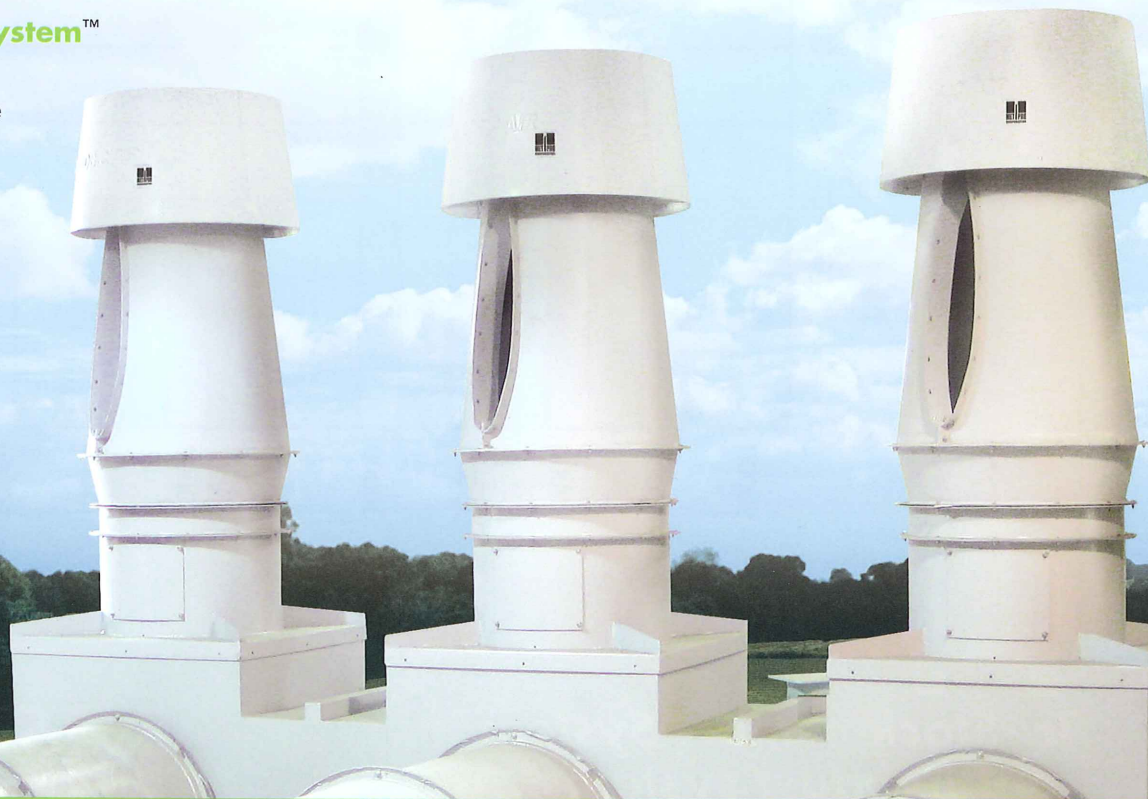

The Tri-Stack® Smart System™ automatically:

- Senses pressure changes as system demand changes
- Adjusts fan speed to maintain optimal system flow
 - Maintains specific pressure at lab hoods
 - Maintains fan exit velocity for safe ventilation as per ANSI Z9.5
- Stages fans on and off as required
- Cycles the spare fan on a monthly basis
- Minimizes use of electrical power while maintaining a safe lab environment
- Automatically adjusts fans to run slower and quieter during off-peak hours, promoting a "good neighbor" policy

Other Tri-Stack® Smart System™

Features and Benefits

- Virtually maintenance free
- Direct drive reliability, no belts to wear out
- Optional heat recovery for even more savings

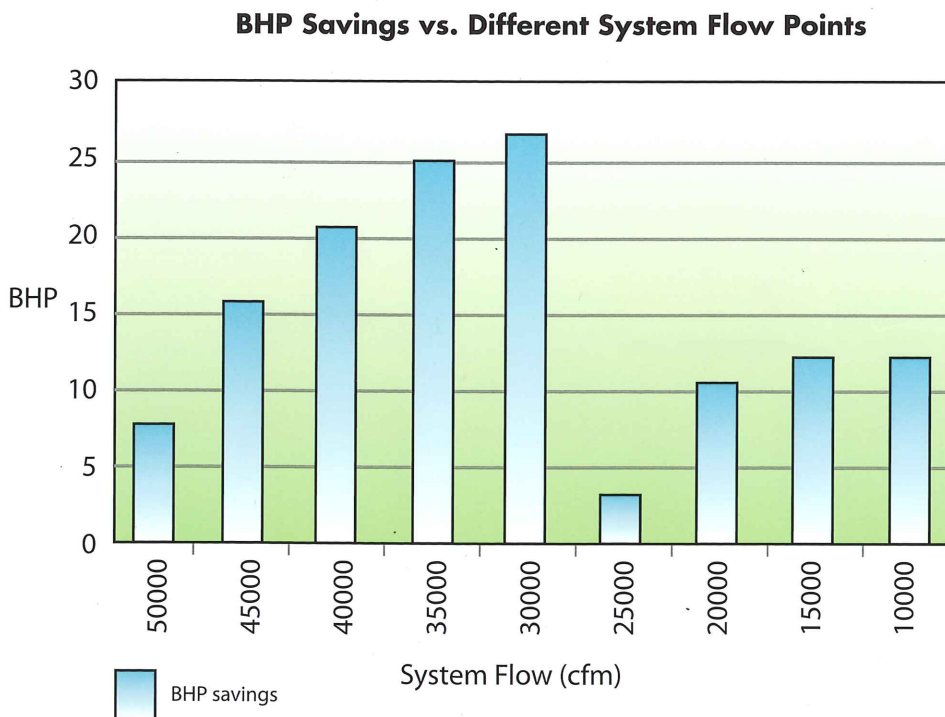

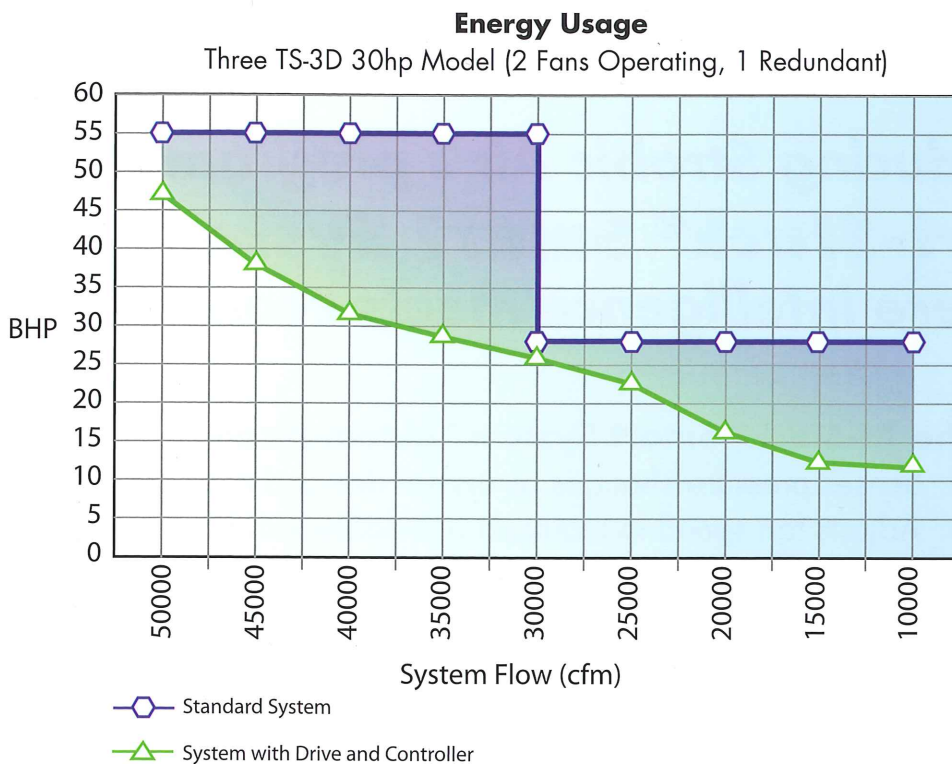

**Low Capital Cost!
Energy Saving Design!
Typical Two-Year Payback!**
